MANUFACTURERS OF
ARCHITECTURAL IRONMONGERY

Rectangular Flush Pull

FP13ff - 152mm wide x 152mm high x 22mm deep - Face Fixed

SKU 6250

FP13sf - 152mm wide x 152mm high x 22mm deep - Secret Fixed

SKU 6260

Manufactured by ourselves in England.

Supplied as the FP13, 152mm wide x 152mm high x 22mm deep Other depths can be supplied to order. The inside of the flush pull box is bead blasted to remove weld marks which gives a good contrast to front finish. FP13ff is a face fixed version and FP13sf is a secret fixed version. These can be supplied as a pair.

Available in:

Satin Stainless Steel (SSS), Polished Anodised Aluminium (PAA). Satin Anodised Aluminium (SAA). Option available in Brass (BP - unlacquered as standard).

Designed for ease of use, with all the inner edges softened for comfort. This design can be fitted to either side of door.

We supply these flush pulls with M5 machine screws. These fix the flush pull box in position in each corner. If you require, other options are available ie. No fixing holes by chemical, glue. The inside of the flush pull box is bead blasted to remove weld marks and gives a good contrast to front finish.

We would recommend the purchase of an intumescent pad ref: IP1 when fitting to a fire rated door.

FP13sf - Secret Fixed

FP13ff - Face Fixed
