MANUFACTURERS OF
ARCHITECTURAL IRONMONGERY

Spun Type Port Holes / Flanged Vision Panels

Manufactured by ourselves in England.

Available in:

Stainless Steel SSS, Aluminium PAA
(SAA option available), Brass, or
colour coated to most RAL & BS Colours.

Our spun round portholes are made from 304 grade Stainless steel with options of Aluminium (non fire rated only) and Brass with other metals or applied finishes to order. We supply Stainless steel 316 grade and port holes with special fixing requirements to order. We can supply up to our stainless steel SPH7 (400mm Ø vision) fire tested to FD30, thus we can supply up to that size under that test certificate, additionally we have an assessment for tested doors and glass for up to one hour to this size. Our range covers vision apertures from 100 to 400mm, see product chart (other sizes are catered for by our double glazed range of round, square or shaped vision panels).

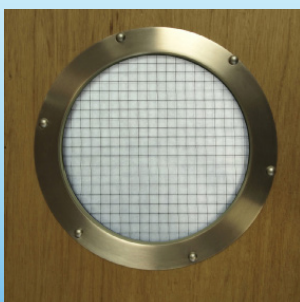

We can offer a vast array of glass types from stock or to order including Laminated, Toughened, Pyroguard, Pyran, GWPP, Frosted to name a few as well as symbols and other insignia as required. Should you have an unusual door thickness or aperture size there is usually a way to overcome supply.

We supply all the glass with our U-shaped gasket pre-applied for ease of fixing. With the facility of CAD drawn templates available for factory pre-routing or on site fitting, we take the stress out of door or wall vision. The port holes are supplied with special screws that allow either Domed or Flat cover caps to be fitted as a finishing touch to cover up the screw heads. We supply the port hole as a kit, this means all parts for completion are included as standard. We look forward to receive your enquiries.

All dimensions in mm

Dimn. 'F' (44.0mm door)= 17mm
Dimn. 'F' (54.0mm door)= 22mm

This type and all our range are supplied with a manufacturers guarantee of up to 10 years (aluminium is up to 18 months due to being a soft metal), subject to our standard terms & conditions with correct fittings.

Maintenance

With all products, a periodic clean with a dry soft cloth or if required, the use of a damp warm cloth. This will remove any grease or dirt marks. Do not scour with any abrasive pads, cleaning products or chemicals.

Please read our Terms & Conditions of sale re: changes / improvements to all products.

Manufactured by J & S Agencies.
